Dear School No. 3 Families,

We are excited to share that our third grade students will be participating in a special learning experience right here at school called the "In The Hive Experience." Instead of traveling for a traditional field trip, this engaging program will be coming directly to our students at no cost because of our fantastic, supportive School No. 2/3 PTA!

We are thrilled to welcome Team Makers of New Jersey to our school! This dynamic program is designed to engage students in hands-on, collaborative experiences that foster teamwork, creativity, and problem-solving skills.

During their visit, students will:

- Participate in interactive group challenges that encourage cooperation and leadership.
- Explore STEM-based activities where they will design, build, and test creative solutions.
- Develop communication and critical thinking skills in a fun, supportive environment.
- Experience team-building exercises that highlight the importance of respect, tolerance, and collaboration.

Team Makers creates an exciting learning environment where students can think outside the box, work together, and celebrate each other's ideas. It's a wonderful chance for our students to learn, grow, and have fun while strengthening essential life skills. We can't wait to see our students in action and share this enriching experience!

Educationally yours,
Mrs. Castrovinci
