Is your string too long?

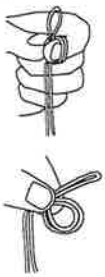
1. Measure the String

Let the string out and set the yo-yo on the ground.

Pinch the string at your elbow and let the top part drop. Slide your other finger down two inches.

2. Make a Solid Loop

Tie a new knot by wrapping the string around your fingernail and pinching it with your thumb, just like tying a balloon. Slide it off your finger.

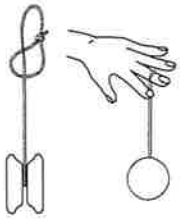


Slip the end underneath and pull it through to form a penny-sized loop.

Pull the knot tight and cut off the extra string.

3. Make a Slip Loop

This loop will fit any size finger, so the yo-yo doesn't fall off your hand.

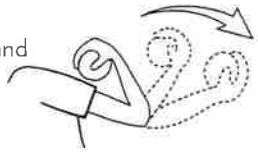


The Specialty yos need five wraps around the axle to do the first three tricks (See back) - Super Spinner yos need to be thrown 'softly' to do these 3 tricks.

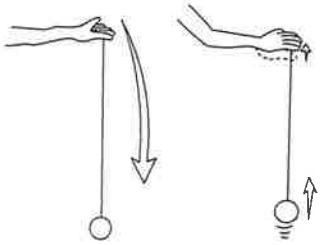
1 Gravity Gripper

1. Place the yo-yo in your hand with your palm up. Make sure the string wraps over the top of your yo-yo.

2. Make a muscle, curl your wrist and fling your arm straight out in front of you.



3. Release the yo-yo with a hard downward throw. Turn your palm over, and catch the yo-yo. **Good job!**

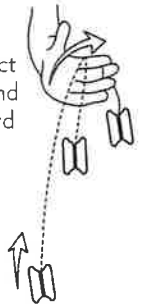


NED TIP *Is your yo-yo not coming up, but ends up spinning on its side? Line your shoulder, elbow and wrist straight out in front of you before your hard downward throw.*

2 Flip Flop

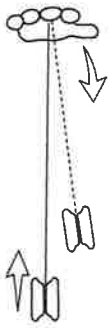
1. Release the yo-yo downward, like you would with the Gravity Gripper.

2. As the yo-yo comes up, direct it over your hand and back toward the floor.



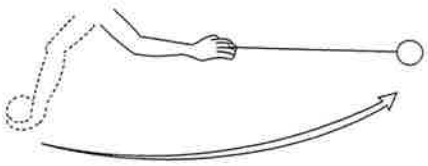
3. As the yo-yo flops back down let it do a second Gravity Gripper.

Congratulations! You've just done the Flip-Flop!



3 Forward Pass

1. Start with the yo-yo in your palm like you would for a Gravity Gripper. Now let your arms hang to your side, and draw your yo-yo hand back... ready to swing it quickly forward.



2. Let go of your yo-yo while it's behind you, and at the same instant, thrust your arm and hand forward in a swinging motion, leading with the back of your hand.

3. As the yo-yo comes back, turn your palm up to catch it. Nice job on the Forward Pass!
