Dear School No. 3 Families,

At School No. 3, our Hornet Hive is always buzzing with ways to support the growth and success of every student. We are excited to continue our WIN (What I Need) initiative, which was introduced last school year as part of our ongoing commitment to providing responsive, targeted support for all learners. WIN provides dedicated time within the school day for students to receive learning opportunities based on their individual needs.

Developed through collaboration with our District Evaluation Advisory Council (DEAC) and informed by the continued review of student progress, classroom performance, assessments, and teacher observations, WIN is designed to meet students where they are and provide what they need to grow.

During WIN, students may receive additional support, skill reinforcement, targeted practice, or enrichment opportunities focused on academic and/or social-emotional growth. This dedicated time allows our teachers to work with students in smaller, focused groups and provide instruction and support that is responsive to each student's individual needs.

An important part of WIN is its flexibility. Student needs are continually reviewed using multiple data points, including classroom performance, assessment data, teacher observations, and student progress. As a result, WIN groups are flexible and may change throughout the school year to ensure students are receiving instruction and opportunities that best support their current learning needs.

Because WIN is responsive to student growth, students may participate in different learning opportunities at different points throughout the year. These changes are a natural and intentional part of the WIN model, allowing us to provide the appropriate level of support, reinforcement, challenge, or enrichment as students grow.

Our goal is to make WIN a meaningful part of each student's school day—one that meets students where they are, supports continued growth, and provides opportunities for every child to experience success.

Thank you for your continued trust and partnership as we work together to help all of our School No. 3 Hornets grow, thrive, and go BEEyond!

Warmly,

Mrs. Boyce
